

FH230 TWISTING MACHINE

FH230A HIGH SPEED YARN TWISTING MACHINE SUITABLE FOR DTY, POY ,HDY .ECT 45D-1000D MOST KIND OF FIBER SINGLE OR DOUBLE YARN TWISTING .THERE HAS A BIG IMPROVEMENT AND INNOVATION IN PRODUCTIVITY AND DESIGN IDEA. THE WHOLE CONSTRUCTIONS ARE MUCH STURDY,AND MORE SCIENTIFIC IN TRAVERSE ;FORMING WITH INDIVIDUAL BOX-SHUTTLE .SPINDLE SPPED ,YARN SPEED AND ROLLER SPEED WITH THE INTELIGENCE SYSTEM OF PLC FREQUENCY CONTROL.TECHNOLOGY ARE MORE CONVENIENT ;ANTI-PARTTERNING;SOFT EDGE;EDGE DEVICE,AND DOUBLE ROLLER INPUT DEVICE ,AND ETC SO AS TO GET THE FASTER ACROSS THE YARN,HIGH PRODUCTIVITY ,HIGH TWISTING RANGE ,BETTER TWISTING YARN;GOOD FORMING AND UNIFORM ,EASY TO CHANGE THE TECHNOLOGY ,LOWER COST OF MAINTAIN AND ETC,THIS MACHIBNE IS THE IDEA MACHINE WITH HIGH PRODUCTIVITY,BIG ROLL AND HIGH QUALITY.

Twisting Machine Advantage:

1 Save

- New driving concept
- Ballon limitor

2 Maintenance

- Reliability
- Easy maintenance
- Short installation time

3 Automation

- Just set all parameters in touch screen
- Central adjustment for balloon height
- Central adjustment for deflection
- Flexible package formation

4 Reinforce

- Reinforced machiner fram
- High productivity
- Less space requirement

5Technology

- New driving concept
- Power failure system
